

CELL DREAMER

A C A D E M Y

Student Version Pricing Guide.®

Letter From Michy E. Morillo

We are excited to announce the Cell Dreamer Academy student cohorts. Focusing on eight specific areas that will make a lasting difference in their growth and life skills, Cell Dreamer Academy student cohorts are meant to lead young people inward as they explore the topics of Self-Reflection, Self-Awareness, Self-Sabotage, Self-Doubt, Self-Esteem, Self-Discipline, Self-Discovery and Self-Motivation.

We understand that every school is unique and have built our offerings with that diversity in mind. Therefore, everything we offer is fully customizable, allowing you to best meet the needs of your staff and students. The following pricing represents what we see as complete packages and most elements can be expanded or reduced to meet those needs. If you have questions related to customizing Cell Dreamer Academy pricing, please do not hesitate to send an email to info@celldreamer.com. We are determined to support as many students along their journey to the best version of themselves.

Thank you for supporting their dream and our mission!

Cell Dreamer Academy: Student Cohort Model

The Cell Dreamer Academy: Student Cohort (CDSC) Model was created in response to the need to support groups of students at the individual school level.

Grounded in the core competencies of social emotional learning (SEL) and using a project-based learning (PBL) framework, the ***Freedom Starts Here Course***, our trauma-informed high school curriculum, takes a personalized approach to exploring topics that impact everyone's growth and development. Using this CDSC Model, student cohorts collectively, yet personally, explore self-reflection, self-awareness, self-sabotage, self-doubt, self-esteem, self-discipline, self-discovery, and self-motivation using Michy E. Morillo's book, *Cell Dreamer: Freedom Starts Here, Student Version*, as a guide. The course culminates with students embracing self-actualization as they create and display their dream boards with the larger community through a *Dreamers Gallery* exhibition of learning and privately with their self-selected dream team through *Dreamer's Circles*.
